

# Relax with 90-day supplies.\*

Meet Kyle and Nick – two Express Scripts members who take medications on a daily basis. But there's one big difference...

## Kyle

gets 90-day supplies of his daily medication through home delivery from Express Scripts® Pharmacy or from a participating retail pharmacy

**That's why Kyle gets to...**

## Nick

gets his prescriptions filled ... every ... single ... month.

**That's why Nick gets to...**

... grab dinner with friends with the extra money in his pocket!

... kick back by the pool instead of making that monthly pharmacy trip!

... take long hikes without worrying that his medicine will run out!

... keep on track with his medicine which helps him stay healthier!

... spend his time at film festivals and not pharmacy counters!

... and focus on other fun hobbies instead of annoying errands!

... pay a higher cost when picking up his medications!

... make time in his schedule to drive to the pharmacy month after month!

... wait in line over and over again!

... miss a dose because he forgot this month's refill!

### The bottom line:

Be like Kyle – order 90-day supplies of your daily medication through home delivery or go online to find a participating retail pharmacy!

### Here's how your plan works:

- 1 Choose where you want to fill 90-day supplies to avoid paying a higher cost for your medications.
- 2 We can deliver them straight to your door with home delivery from Express Scripts® Pharmacy.
- 3 Or you can pick up your 90-day supplies from a participating retail pharmacy.

Avoid paying a higher cost for your daily medications by switching to 90-day supplies at [express-scripts.com/3month](https://www.express-scripts.com/3month)
