

AccessHope + BrightSpring

Fighting cancer with everything we know.™

When you're facing a cancer diagnosis, there's **nothing more important than finding the very best expertise**. That's why BrightSpring offers employees and dependents enrolled in a BrightSpring Imagine360 medical plan and eligible family members access to the resources they need from the comfort of their homes.

Contact AccessHope's cancer specialists, considering that:

Cancer isn't ONE disease

It's now subclassified into hundreds of types defined by site and genetic blueprint, requiring subspecialized care and expertise.

Advancements in cancer research and treatments are changing rapidly

Our oncology experts are at the forefront of the latest cancer breakthroughs and lifesaving discoveries. They're putting that knowledge to work to help you benefit from the most-effective treatments.

We communicate with your physician

Our medical team communicates with your doctor to provide expert recommendations based on groundbreaking insights and leading discoveries.

We're backed by a decade of excellence

For more than 10 years, our network has been ranked among the Best Hospitals for cancer care by the *U.S. News & World Report*.

AccessHope's services for employees and dependents enrolled in a BrightSpring Imagine360 medical plan and eligible family members (parents, siblings, parents-in-law, grandparents, grandparents-in-law):

Cancer Support Team

Connect to experienced oncology nurses for tips on preparing for doctor visits, treatment information, or even emotional support—wherever you are in your cancer journey.

Expert Advisory Review

Request that AccessHope's medical team reviews your case. They'll provide recommendations to your treatment plan based on groundbreaking insights and the latest treatments.

Accountable Precision Oncology

For certain complex cancer diagnoses, treatment options are evolving. In these cases, a team of highly-focused specialists will automatically review your diagnosis and, in collaboration with your local physician, provide expert support. *(This service is available only to employees and dependents enrolled in a BrightSpring Imagine360 medical plan.)*

If you've received a cancer diagnosis, AccessHope can provide access to the most-up-to-date cancer expertise. To find out how we can help you navigate the cancer journey, call **844-711-0838**, visit **myaccesshope.org/brightspring**, or **scan the code to the right**.
